SPRING NEWS 2018

Here at Jardinique we continue “in search of the unique” on your behalf. Copper pots look wonderful in a garden. We have an amazing collection of copper coppers, copper vats and copper pots and pans; with Spring just around the corner and planting too please come and see for yourself. Ferns, grasses and hostas look fantastic in them and even slugs and snails are deterred by the copper!!

We continue trusting our instincts in our quest to find new and exciting stock at reasonable prices. Generally if we like something, we know you will too.

We thank you for your continued support. Please keep an eye on our changing stock and variable opening times www.jardinique.co.uk. before making a journey to visit us and we look forward to seeing you.
